HTML

Objectives:

- Download an image from the web.
- Edit the image size in Fireworks.
- Save the image as a .pict, .gif and jpg file.
- Import the image into iPhoto
- Upload the image to your account at <http://photo.epson.com>
- Create an html document with links to your e-mail & webpage.
- Create a PDF version of your resume.
- Create a link to your resume.
- Insert the edited picture into your html document.
- Save all work to your student folder.

1. Download your image by going to:
<http://homepage.mac.com/ecalle/PhotoAlbum8.html>
2. Save your image to your student folder. You may use option-click or right click.
3. Open iPhoto from the doc.
4. Import the image into iPhoto.
5. Open a free account at: <http://photo.epson.com>
6. Open your resume in Word.
7. Press apple-p for print.
8. At the bottom select “save as PDF” and save the PDF document in your student folder.
9. Open last week’s Microsoft Word document.
10. In the document, type your name. Highlight your name by clicking to it’s left and dragging until it is all highlighted. Press apple-k. Choose e-mail from the tabs menu. Where appropriate, type in your e-mail address.
11. Save as a Word file and as a webpage.
12. Professor Calle will guide you through the Dreamweaver program.
